2 piece

Connect sister clips, join velcro from side mid to top mid
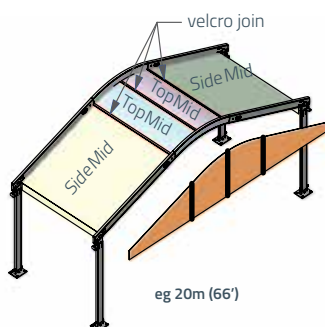

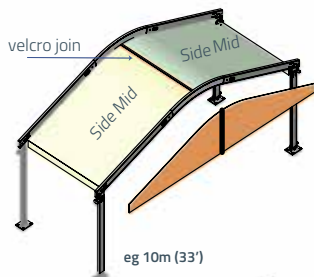

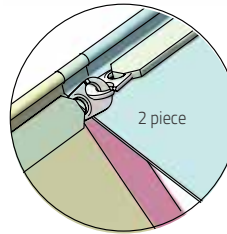

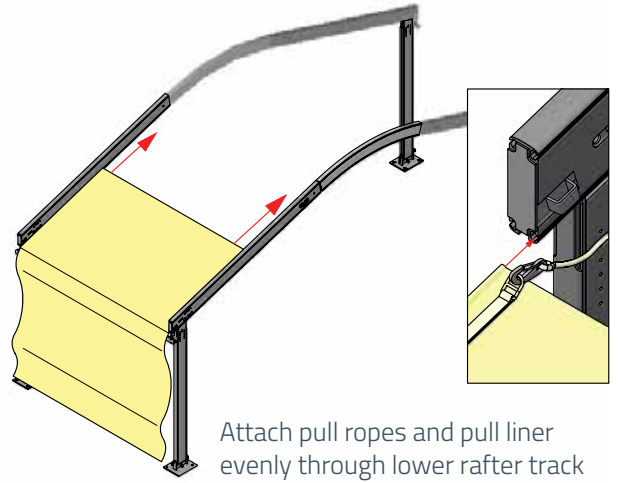

Gables tensioned at eave level with camlock buckle and web strap

Attach remaining liner hooks to eaves ie around eave or into keder groove
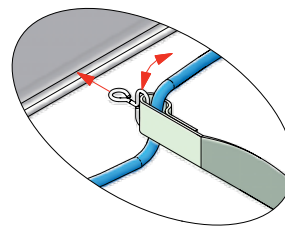

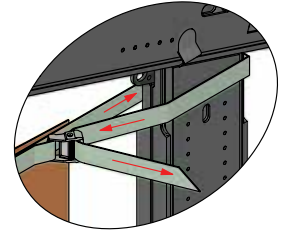

Attach hooks at end of bungy
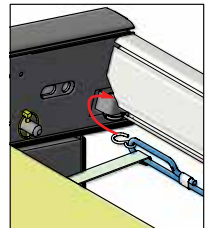

Arched Track Liner / White

FABRIC INFORMATION

Baytex Silkline Liners are manufactured from 100% polyester fibre for maximum durability and easy care. All Baytex Silkline fabrics are inherently flame retardant, they have a soft finish with a beautiful silky sheen that resists hard creasing.

FABRIC CARE INSTRUCTIONS
Silkline is an inherently flame retardant 100% polyester fabric.
It can be washed any number of times with no deterioration of the fabric's flame retardant performance. Silkline has no chemical treatment to wash out.

Follow these simple instructions for a long lasting performance:
- Treat Silkline as a delicate fabric
- Launder in a domestic or commercial washing machine
- **Only** use cool water and a mild laundry detergent
- Fluff dry thoroughly using cool or warm air only (max 50°C/120°F)
- Restuff into storage bags when completely dry
- Never store liners damp
- Spot clean bad marks only as necessary
- Use a fabric steamer or warm iron for smooth wrinkle appearance

Important:
Always avoid excessive heat as this may damage or shrink the fabric.

Fabric Type:
- FR300 (6oz) - For Flat Linings
- FR75 (2oz) - For Gathered Linings

Colour Options

| Black | White | Champagne |

Fabric Qualities

Non Flammable   Easy Care   Machine Washable

FLAME RETARDANCY CERTIFICATION
All Silkline Plus fabrics are inherently flame retardant and comply with the following International Flame Retardancy Standards:
- Europe: Classification: M1 Duribility of Classification: (NF P 92-512 : 1986)
- UK: BS 5867 Pt2 Type B
- Germany: DIN 4102-1 and NTA 8007:2007 'Brandgedrag von verseiringsmateriaien' classification 'B'
- USA: NFPA 701 small scale / USA CalifoWW7101
- Australia & NZ: AS1530: Pts 2 & 3

Full reports and certifications are avaliable to Baytex customers upon request.
